Nationally Consistent Collection of Data on School Students with Disability (NCCD)

All schools are required to collect information about the numbers of students that they provide adjustments to under the Disability Discrimination Act (1992) and Disability Standards of Education (2005). This data will be used as the basis for national funding.

The NCCD involves the collection of;

- the number of students receiving adjustments to enable them to participate in education on the same basis as other students
- the level of adjustment provided to students
- student's type of disability if known

Under the model the definition of disability is broad and includes learning difficulties, health and mental health conditions.

If your child is identified for inclusion in the Collection, the required information will be included in this year's data collection.

If you have any questions about the data collection, please contact Lyn Kolic.

Room 6 Term 2 Newsletter

During Reconciliation Week the whole school went on an excursion to Mambray creek for a day of activities and fun.

There was bracelet making, dot painting and damper making and we got to roast marshmallows on the fire.

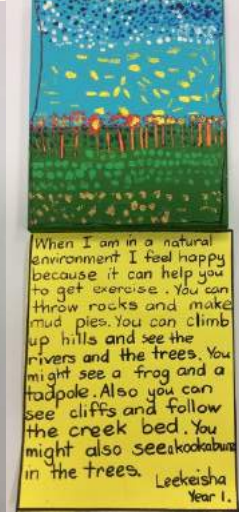

We loved our time at Mambray creek. Our class have made maps to show where we went. We made our own 'key' with symbols for our maps.

Thank you Mr Yates and staff for organising such an awesome trip! We can't wait for next time!

We have been looking at Traditional and Contemporary Aboriginal Artists. We like the paintings done by Brownyn Bancroft. We have all created our own paintings, we had to practise how to do our symbols on paper, then our designs before we started painting on the canvas.
